The purpose of this alert is to advise you that the hold placed on California Department of Transportation (Caltrans) work sites is removed (reference Flood Assistance Alert #20). However, we urge continued extreme caution in refilling positions or establishing new Temporary Job Creation work sites with Caltrans.

However, as you are aware and as we have previously advised, displacement must be avoided (reference the Job Training Partnership Act, Section 143 (b)). Due to the sensitivity surrounding this issue at Caltrans work sites, written confirmations that there is no displacement should be beyond and separate from a mere certification in a worksite agreement. These cautions are specifically directed to Caltrans worksites. At your discretion in other similar situations, the same extra cautions may be warranted.

Please refer any questions regarding this matter to Luis Hermosillo at (916) 654-5416 or Laine Hendra-Aldrich at (916) 654-5595.

\S\ JIM CURTIS, Section Manager
Program Management Section
